

MATETI RASHMIPRIYA

 matetirashmipriya0802@gmail.com |  LinkedIn |  GitHub |  +91 6304116589

Objective: A passionate ECE student with a strong interest in web development, seeking an opportunity in the software industry to apply my technical skills, learn modern technologies, and contribute to building efficient and user-friendly application.

INTERNSHIPS AND PROFESSIONAL TRAININGS

Training in Technical and Soft Skills

TNSIF – Java Backend , Soft Skills

PROJECTS

Kisan AI Assistant – GenAI Full Stack Project

Tech Stack: Python, Streamlit, Groq API (Llama-3, Whisper), FAISS, PyTorch

- Built an AI-powered multilingual farming assistant enabling farmers to ask questions via voice in English, Hindi, and Telugu, using Whisper STT and Llama-3 LLM for instant responses.
- Implemented RAG with FAISS vector database to retrieve verified Kisan Call Center data and generate accurate agricultural solutions.
- Developed a crop disease detection model using PyTorch (ResNet18) to identify plant diseases from leaf images and provide treatment recommendations.

EDUCATION

AVN Institute of Engineering and Technology

B.Tech – Electronics and Communication Engineering

Hyderabad, Telangana, India

2023 – 2026

Trinity College of Engineering and Technology

Diploma in Electronics and Communication Engineering (ECE)

Peddapalli, Telangana, India

Krishnaveni Talent School (SSC)

Peddapalli, Telangana, India

TECHNICAL SKILLS

- **Programming Languages:** Python, C
- **AI / Machine Learning:** Generative AI
- **APIs & AI Tools:** Groq API, Whisper (Speech-to-Text), RAG (Retrieval Augmented Generation)
- **Databases:** MySQL, XAMPP
- **Web Technologies:** HTML, CSS, JavaScript
- **Tools & Platforms:** VS Code, Git, GitHub

ADDITIONAL INFORMATION

Certifications:

- Completed Bootcamp on React Portfolio Development and AI Chatbot Development
- Completed Bootcamp on Prompt Engineering & Generative AI

Hobbies:

- Reading non-fiction novels
- Listening to music.
